SURVEY

Returning to Campus Full Time in September

We want to hear your questions and concerns regarding returning to campus full time.

The UofC is considering several options for postdocs, staff and students returning to work full time on campus in the summer/fall. One of these options is returning with no physical distancing measures in place. The *Safety Improvement Team (SIT) Committee* is collecting questions and concerns from the UofC community which will be provided to the UofC leadership team to be addressed in their final return to campus plans for September.

Please fill out this survey to let us know how you feel about returning to campus full time. Your submissions will be anonymous.
